Education

PhD Candidate in Economics, Heinrich Heine University Düsseldorf (DICE)
Düsseldorf, Germany since 10/2022

M.Sc. Applied Economics, University of Bath
Bath, United Kingdom 09/2020 – 11/2021

B.Sc. European Economic Studies, Otto Friedrich University Bamberg
Bamberg, Germany 10/2016 – 03/2020

Dissertation

Dissertation Title: Firm Behaviour in a Globalised Economy
I study how international economic conditions shape firm behaviour. My research examines how firms adjust product portfolios when export opportunities change, how ownership responds to taxation, and how offshoring affects innovation across firms and industries.

Professional Experience

Researcher/ PhD Candidate, Heinrich Heine University Düsseldorf (DICE)
Düsseldorf, Germany since 10/2022

- Conduct empirical and theoretical research on how changes in international trade conditions affect firm behaviour, using firm-level trade data, balance sheet and patent information, and input-output tables.
- Independently manage a research project from research design through economic modelling, empirical analysis and presentation, alongside collaborative research with co-authors.
- Teach International Trade at PhD, MSc and BSc levels and Environmental Economics at BSc level, communicating economic mechanisms to audiences with different technical backgrounds.

Economist, Centre for Economics and Business Research (Cebr)
London, United Kingdom 09/2021 – 08/2022

- Built the initial forecasting model for UK new car registrations for a bespoke client project, using historical patterns, strong seasonality, and macroeconomic assumptions.
- Authored rapid macroeconomic commentary on major BLS, Eurostat, and ONS releases, including inflation, GDP, and labour market data, typically within 1–2 hours of publication.
- Produced client-facing research reports and presented final project findings, translating macroeconomic and market analysis into clear conclusions for non-specialist audiences.
- Translated client questions into structured analytical work through scoping discussions, then conducted analysis and presented findings, including on clients' industry-specific cost drivers.

Intern, German Marshall Fund of the United States (GMF)
Brussels, Belgium 02/2020 – 06/2020

- Conducted policy-oriented research on transatlantic economic issues, including technology sovereignty, green finance taxonomy, and carbon-border policy
- Co-authored a published report and prepared briefing materials for internal use, contributing to GMF's work on EU-US policy dialogue and stakeholder engagement

Skills & Additional Information

Methods: Econometrics, Economic Modelling, Machine Learning
Software: Stata, R, LaTeX, Powerpoint, Excel
Languages: German (native), English (fluent), French (intermediate), Italian (intermediate)
Peer Review: Invited referee for Review of International Economics
Conferences: Presented my research at 12 international conferences
Hobbies & Interests: Kickboxing, History, Hiking
